# Litteraturliste til temaet Epilepsi

## Baggrund for søgning:

**År for søgning:** december 2015-januar 2016 og senere suppleret med artikler publiceret efter januar 2016 og enkelte referencer før 2005.

**Tidsafgrænsning for søgning:** 2005 -2015.

**Geografisk afgrænsning:** Internationalt.

## Den samlede litteraturliste

Alaee, N. et al (2015). Psychosocial challenges for parents of children with cerebral palsy: A qualitative study. *Journal of Child and Family Studies*, Vol. 24 (7): 2147-2154.

Andrade, P. M. O. et al (2012). Content identification of the interdisciplinary assessment of cerebral palsy using the international classification of functioning, disability and health as reference. *Disability and Rehabilitation: An International, Multidisciplinary Journal*, Vol. 34 (21): 1790-1801.

Andrade, P. M. O. et al (2012). An ICF-based approach for cerebral palsy from a biopsychosocial perspective. *Developmental Neurorehabilitation*, Vol. 15(6): 391-400.

Badia, M. et al (2013). The influence of participation in leisure activities on quality of life in spanish children and adolescents with cerebral palsy. *Research in Developmental Disabilities*, Vol. 34(9): 2864-2871.

Baiter, M. R. R., & Dupas, G. (2013). Experiences from families of children with cerebral paralysis in context of social vulnerability. *Revista Latino-Americana De Enfermagem*, Vol. 21(4): 956-963.

Blacher, J. et al. (2013). Syndrome specificity and mother-child interactions: Examining positive and negative parenting across contexts and time. *Journal of Autism and Developmental Disorders*, Vol. 43(4): 761-774.

Blank, R. et al (2008). Conductive education for children with cerebral palsy: Effects on hand motor functions relevant to activities of daily living. *Archives of Physical Medicine and Rehabilitation*, Vol. 89 (2): 251-259.

Broberg, M. et al (2012). Measuring responsive style in parents who use AAC with their children: Development and evaluation of a new instrument. *AAC: Augmentative and Alternative Communication*, Vol. 28 (4): 243-253.

Brown, F. L. et al (2014). Improving child and parenting outcomes following paediatric acquired brain injury: A randomised controlled trial of stepping stones triple P plus acceptance and commitment therapy. *Journal of Child Psychology and Psychiatry*, Vol. 55(10): 1172-1183.

Bult, M. K. (2013). Predicting leisure participation of school-aged children with cerebral palsy: Longitudinal evidence of child, family and environmental factors. *Child: Care, Health and Development*, Vol. 39(3): 374-380.

- Bunning, K. et al (2013). Investigation of practices to support the complex communication needs of children with hearing impairment and cerebral palsy in a rural district of Kenya: A case series. *International Journal of Language & Communication Disorders*, Vol. 48 (6): 689-702.
